jeffrhua@gmail.com | (714) 722-2333 | Fountain Valley, CA | [Github](#) | [LinkedIn](#)

Experience

FreightGate (Jul 2025 - Sep 2025)

- Integrated a Stripe payment processing into a full-stack web application, developing both frontend and backend features and storing transactional data in MySQL
 - Utilized APIs to implement application features and designed database schemas

NREIP Research Intern (Oct 2025 - Dec 2025)

- Helped with the design and planning of a secure document management system for tracking Navy approval chains and workflow.
 - Utilized SharePoint, Modeling tools, and other Microsoft tools

Skills

Programming / Coding Languages: Python, C#, GDScript, C++, C, JS, Kotlin

Tools: VS Code, CLion, PyCharm, Visual Studio 2022, Godot Engine, MongoDB, Avalonia, Docker, Entity Framework, ASP.Net, Android Studio, Svelte

Libraries: SQLAlchemy, Matplotlib, Scikit-learn

Projects

Listing Tracker Discord Bot (2025)

- Built in JS which listens and filters for new listings from the [BP.TF](#) Api
- Hooked up to a discord bot which creates embeds for each new listing after filtering for potential good deals

Chess Application / Bot (2025)

- Implements a C# application following the book "C#eckmate"
- Builds a ui application using Avalonia

School Database System - Database Fundamentals (2024)

- Created a database system design and implementation using both SQLAlchemy / MongoDB
- Tracks new majors, departments, enrollments, and students

Education

California State University, Long Beach
Bachelor of Science: Computer Science

Overall GPA : 4.00
Expected: May 2026

Relevant Coursework:

- Database Fundamentals
 - Database design and applications with SQL and MongoDB
- Machine Learning
 - Data Mining Fundamentals, Data Refining, Decision Trees, Overfitting / Underfitting
- Software Development Frameworks
 - Development Frameworks with C#, ASP.NET, Entity Framework
